RSI INTERNATIONAL SYSTEMS INC.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS SEPTEMBER 30, 2018 (*Unaudited, in Canadian dollars*)

1. NATURE OF OPERATIONS AND GOING CONCERN

RSI International Systems Inc. (“RSI” or the “Company”) is a publicly listed company incorporated under the laws of British Columbia, Canada. The address of the Company’s head and registered office is Unit 8152, 200-375 Water Street, Vancouver, BC, V6B 0M9. These condensed consolidated interim financial statements of the Company as at and for the nine months ended September 30, 2018 include the Company and its subsidiary (together referred to as the “Group”). The Group is in the business of providing an integrated web-based real-time reservation and property management system to the hotel and resort industries.

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on November 20, 2018.

These financial statements have been prepared using International Financial Reporting Standards applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations for the foreseeable future.

Since 2012, the Company has focused on product development and enhancement, as well as sales and marketing activities. These activities have been funded by a combination of revenue generated from the sale of the Company’s products and services, equity financings, lines of credit and short-term loans. The Company’s expenses have exceeded its revenue during the nine months ended September 30, 2018 and it has incurred a net loss of \$11,590 (September 30, 2017 – \$103,345) and an accumulated deficit as of September 30, 2018 of \$5,578,694 (December 31, 2017 – \$5,567,104).

Accordingly, there is a material uncertainty that may cast significant doubt on the validity of the above assumption. The Company’s ability to continue as a going concern is dependent on its ability to raise financing or the attainment of profitable operations. If the going concern assumption was not appropriate for these condensed consolidated interim financial statements, then adjustments may be necessary in the carrying values of assets and liabilities and the reported expenses. These condensed consolidated interim financial statements do not reflect any adjustments, which could be material, to the carrying amounts of assets and liabilities, reported revenues and expenses, and balance sheet classification used that would be necessary if the Company were unable to continue as a going concern.

On September 7, 2018, The Company announced that it had signed a binding Letter of Intent (“LOI”) with nSight Inc (“nSight”) for the sale of RSI’s RoomkeyPMS business and assets for gross proceeds of US \$4.6 million in cash, before applicable adjustments.

RSI INTERNATIONAL SYSTEMS INC.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**
SEPTEMBER 30, 2018 (*Unaudited, in Canadian dollars*)

Under the terms of the LOI, nSight will pay RSI gross proceeds of US \$4.6 million for the Company's current business and assets related to the development and operation of RSI's RoomKeyPMS. This figure will be adjusted to account for the timing of certain receivables, payables, deferred revenue, prepaid costs and other items that are assumed by nSight. RSI will also incur some costs related to the disposal of its RoomKey business for certain contractual obligations. The US-dollar figure will be converted to Canadian dollars by averaging the posted Bank of Canada closing US\$/CDN\$ exchange rate for the seven days preceding the LOI date of September 7, 2018, and the same exchange rate for the seven days preceding the closing of the transaction. Should the exchange rate move more than five percentage points in either direction, the disadvantaged party will have the option to terminate the transaction. For further details please see the news release dated September 7, 2018.

RSI and nSight are working towards negotiating a Definitive Agreement, to replace the binding LOI. The Definitive Agreement will contain an RSI Non-Compete provision as well as a provision that RSI will not solicit any alternative transactions, and that should the Company terminate the Definitive Agreement, as the result of accepting a third-party acquisition proposal, nSight will be entitled to a break-fee of US\$460,000. The transaction is subject to a number of conditions, including completion of satisfactory due diligence, the entering into of definitive documentation and the receipt of all necessary regulatory and third-party approvals and consents, including approval by RSI shareholders.

2. SIGNIFICANT ACCOUNTING POLICIES

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34 Interim Financial Reporting, and have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed, and therefore these condensed consolidated interim financial statements should be read in conjunction with the December 31, 2017 audited annual consolidated financial statements and the notes.

These unaudited condensed consolidated interim financial statements are based on the IFRS effective as of November 20, 2018, the date these unaudited condensed consolidated interim financial statements were authorized for issuance by the Company's Board of Directors, and follow the same accounting policies and methods of computation as the most recent annual consolidated financial statements, except for the impact of the changes in accounting policy disclosed below:

RSI INTERNATIONAL SYSTEMS INC.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS SEPTEMBER 30, 2018 (Unaudited, in Canadian dollars)

IFRS 15 Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, which covers principles for reporting about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The core principle of the new standard is that an entity recognizes revenue to represent the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard also provides a model for the recognition and measurement of gains or losses from sale of non-financial assets.

The Company adopted IFRS 15 effective January 1, 2018 applying the retrospective method of transition. As the adoption of this standard did not have a material impact on its consolidated financial statements, no adjustments to prior periods were required.

Accounting Standards Issued but Not Yet Effective

The following standards and interpretations have not been in effect as they will only be applied for the first time in future periods. They may result in consequential changes to the accounting policies and other note disclosures. The Company has not yet assessed the impacts of the standards or determined whether it will adopt the standards early.

IFRS 16 - Leases

On January 13, 2016, the International Accounting Standards Board published a new standard, IFRS 16, Leases, eliminating the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Under the new standard, a lease becomes an on-balance sheet liability that attracts interest, together with a new right-of-use asset. In addition, lessees will recognize a front-loaded pattern of expense for most leases, even when cash rentals are constant. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted. The extent of the impact of adoption of the standard has not yet been determined.

3. KEY ASSUMPTIONS AND SIGNIFICANT JUDGEMENTS

Significant Accounting Judgments and Estimates

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments and estimates and form assumptions that affect the reported amount of assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenues and expenses. Management uses historical experience and various other factors it

RSI INTERNATIONAL SYSTEMS INC.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
SEPTEMBER 30, 2018 (Unaudited, in Canadian dollars)**

believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

In preparing these condensed consolidated interim financial statements, significant judgments made by management in applying the Company's accounting policies and the key sources of estimation were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2017.

4. ACCOUNTS RECEIVABLE

The aging analysis of accounts receivable is as follows:

	Total	Current	31 - 60 Days	60 - 90 Days	> 90 Days
September 30, 2018	\$ 183,389	\$ 64,529	\$ 48,743	\$ 9,000	\$ 61,117
December 31, 2017	\$ 114,718	\$ 61,162	\$ 16,928	\$ 130	\$ 36,498

As at September 30, 2018, accounts receivable of an initial value of \$18,274 (December 31, 2017 – \$22,902) were impaired and fully provided for allowance. See below for the movements in the provision for impairment of receivables.

5. PREPAID EXPENSES AND LONG-TERM PREPAID EXPENSES

Prepaid expense balances represent advances paid to suppliers for services to be rendered in the fiscal years 2018 and 2019.

Long-term prepaid expenses represent rental deposits paid to the landlords in relation to the office lease agreements for its premises, including deposits related to sub-leased premises. The deposits are classified as long-term assets since the leases mature beyond September 30, 2019.

In 2015, the Company commenced work on a new project, RoomKey Web, to develop a Property Management System (“PMS”) with a more flexible platform for integration with partner products and customer reporting. Once a new feature is complete and released, costs associated with that feature will begin to be amortized over a five year period.

To date, the Company has released mobile housekeeping, an enhanced credit card security platform, and a fuzzy-logic guest data management system named Profile Match and Merge.

8. DEFERRED REVENUE AND CUSTOMER ADVANCES

Deferred revenue consists of pre-billed services, license fees, subscription fees and web design fees. Deferred revenues are recognized in revenue when the service is provided.

At September 30, 2018, 88% (December 31, 2017 – 83%) of deferred revenue was denominated in US dollars, with the remaining 12% (December 31, 2017 – 17%) in Canadian dollars.

9. SHARE CAPITAL

Authorized: Unlimited common shares without par value

Escrow Shares

As at September 30, 2018, the Company has no escrow shares.

RSI INTERNATIONAL SYSTEMS INC.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**
SEPTEMBER 30, 2018 *(Unaudited, in Canadian dollars)***Exercise of Options**

During the year ended December 31, 2017, 725,000 common shares were issued upon exercise of 575,000 stock options at \$0.10 per share and 150,000 stock options at \$0.12 per share for gross proceeds of \$75,500. On exercise of such options, \$45,209 has been reclassified to share capital from contributed surplus.

Stock Options

On January 25, 2017, the Company implemented the amended stock option plan previously approved by shareholders at its annual general meeting held on August 24, 2016. The Company has also granted 1,375,000 incentive stock options to the officers, managers and directors of the Company at an exercise price of \$0.20 per share with a term of five years and vesting 1/3 immediately, 1/3 on the first year anniversary date, and 1/3 on the second year anniversary date. On the same date, the Company also cancelled 200,000 stock options valued at \$0.12 and expiring on May 27, 2019. In September 2017, the Company cancelled an additional 350,000 options valued at \$0.12 and expiring on May 27, 2019.

On November 15, 2017, the Company granted to one of its managers 50,000 stock options at an exercise price of \$0.20 per share with a term of five years and vesting 1/3 immediately, 1/3 on the first year anniversary date, and 1/3 on the second year anniversary date.

The fair value of the stock options granted during the period was calculated as of the date of the grant using the Black-Scholes option pricing model with the following assumptions:

	January 23, 2017 Grant	November 15, 2017 Grant
Risk-free interest rate	0.99%	1.58%
Expected life of warrants in years	5 years	5 years
Expected volatility	105.50%	92.56%
Expected dividend yield	0%	0%
Estimated forfeiture rate	0%	0%

During the nine month period ended September 30, 2018, 825,000 previously granted stock options with a weighted average exercise price of \$0.17 were cancelled.

During the nine month period ended September 30, 2018, stock-based compensation expense of \$10,577 (September 30, 2017 – \$100,710) was recognized.

2. The Company paid remuneration for management services to a company controlled by a director in common totaling \$67,800 (September 30, 2017 - \$53,200).
3. The company granted nil (September 30, 2017- 1,375,000) stock options to its officers, manager and directors.

These transactions are in the normal course of operations, on normal commercial terms and conditions and exchange rates, which is the amount of consideration established and agreed to by the related parties.

12. FINANCIAL INSTRUMENTS

Financial Risk Management

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's maximum exposure to credit risk is in the carrying value of its Cash, accounts receivable, and line of credit.

The Company's exposure to credit risk associated with its accounts receivable is the risk that a customer will be unable to pay amounts due to the Company. Accounts receivable are considered for impairment on a case-by-case basis when they are past due or when objective evidence is received that a customer will default. The credit risk of accounts receivable is affected by the customer base being concentrated in the hotel and travel industry. However, this is somewhat offset by the customer base being dispersed across various geographical locations.

As at September 30, 2018, there is \$61,117 (December 31, 2017 – \$36,498) included in accounts receivable that is greater than 90 days old.

The Company's exposure to credit risk associated with its line of credit is the risk that it will not be able to satisfy its requirement of maintaining monthly recurring revenue of not less than \$200,000 calculated on a rolling three-month average and maintaining on a consolidated basis net invested capital of \$1.8 million with net invested capital being defined as share capital. As well, the availability of this line of credit is at the sole discretion of the Bank and the Bank may cancel or restrict the availability of any unutilized portion at any time and from time to time without notice. As at September 30, 2018 the Company had a balance of \$nil (December 31, 2017 - \$nil) on the facility.

Currency Risk

The functional currency of RSI is the Canadian dollar. Most of the foreign currency risk is related to US dollar funds held in bank, accounts receivable and accounts payable balances denominated in US dollars. Therefore, the Company's net loss is impacted by fluctuations in the valuation of the US dollar in relation to the Canadian dollar.

RSI INTERNATIONAL SYSTEMS INC.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**
SEPTEMBER 30, 2018 (*Unaudited, in Canadian dollars*)

The Company does not hedge its exposure to currency fluctuations. The Company has completed a sensitivity analysis to estimate the impact that a change in foreign exchange rates would have on the net loss of the Company, based on the Company's financial instruments in US dollars as at year end. This sensitivity analysis shows that a change of +/- 10% in US\$ foreign exchange rate would have a -/+ \$1,570 impact on net loss.

Interest Rate Risk

The Company is subject to interest rate risk on its cash balance in the bank and its line of credit facility and there is unlikely to be a material impact on net income (loss).

Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time.

As at September 30, 2018, other than the line of credit discussed above, the Company had total debt in the amount of \$532,464 due within 12 months (December 31, 2017- \$530,310). As at September 30, 2018, the Company had a cash balance of \$200,085 (December 31, 2017 - \$101,736), accounts receivable of \$183,389 (December 31, 2017 - \$114,718) and had used its line of credit facility to a balance of \$nil (December 31, 2017 - \$nil).

The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves to meet its liquidity requirements at any point in time. Management recognizes the Company may need to expand its cash reserves in the coming year if it intends to adhere to its sales, marketing, and product development plans, and has evaluated its potential sources of funds, including: increased revenue from sale of its products and services, possible debt and equity financing options, and divestiture of assets. Although Management intends to assess and act on these options through the course of the year, there can be no assurance that the steps Management takes will be successful. Please see description of LOI discussed in note 1.

Management of Capital

The Company's objectives in managing capital are to ensure sufficient liquidity to pursue its strategy of growth combined with strategic acquisitions and to provide returns to its shareholders. RSI defines capital that it manages as the aggregate of its shareholders' equity, which is comprised of issued capital, contributed surplus and deficit. The Company manages its capital structure and makes adjustments to it in light of general economic conditions, the risk characteristics of the underlying assets and the Company's working capital requirements. In order to maintain or adjust its capital structure, the Company, upon approval from its Board of Directors, may issue shares, issue debt, pay dividends or undertake other activities as deemed appropriate under the specific circumstances.

Other than the requirements relating to the line of credit arrangement noted above, the Company is not subject to any other externally imposed capital requirements as at September 30, 2018. The

RSI INTERNATIONAL SYSTEMS INC.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**
SEPTEMBER 30, 2018 *(Unaudited, in Canadian dollars)*

Company's overall strategy with respect to management of capital at September 30, 2018 remains fundamentally unchanged from the year ended December 31, 2017.

The Company has classified its financial instruments as follows:

	September 30, 2018	December 31, 2017
	\$	\$
Financial Assets		
Fair value through profit and loss, measured at fair value:		
Cash	200,085	101,736
Loans and receivables, recorded at amortized cost:		
Accounts receivable	183,389	114,718
Financial Liabilities		
Other financial liabilities, recorded at amortized cost:		
Accounts payable and accrued liabilities	532,464	530,310
Line of Credit	-	-

Fair Value

Financial instruments recorded at fair value are measured using a three-level fair value hierarchy:

- Level 1 Fair value is determined by reference to quoted prices in active markets for identical assets and liabilities
- Level 2 Fair value is determined based on inputs other than quoted prices for which all significant inputs are observable, either directly or indirectly
- Level 3 Fair value is determined based on inputs that are unobservable and significant to the overall fair value measurement

The Company's cash is recorded at fair value using level 1 hierarchy.

The carrying value of accounts receivable and accounts payable and accrued liabilities approximates the fair value because of the short-term of these instruments.
